

Fatwell Challenge

By Anastasia (@adb.nutbiz)

Problems do not solve by themselves. So here is a small problem-solving exercise to help and support you through festive season:

1. Identify your problem. What usually goes wrong during the festive season? Get into the root cause of the issue!

2. Find a solution. What can you do this year to avoid this from happening?

3. Support. Who can help me with accountability? Who can give support and advice (if needed)?
